DID YOU KNOW?

You can text our office landline for non-emergent or non-clinical questions!

When it comes to foot and ankle care, there shouldn't be barriers between you and the appointment you need. Our team makes it easy through simple technology, and many patients appreciate one of our latest options: booking through texts sent directly to our landline! Just one more way to get the results and relief you need, minus the stumbling blocks:

Contact Us!

Stay Connected!

Our patient portal offers patients convenient online, secure access to your personal health information 24-hours a day. The patient portal can be accessed from any computer or mobile device and is a great way to communicate with our office for **Non - Urgent Issues**.

With the Batavia Foot Care Center patient portal you can:

- View and/or print your current medical history, medication and allergy lists, including discharge instructions and educational material.
- View lab and test results.
- Send/receive non-urgent messages and information to our office staff and providers.
- Send requests for prescriptions refills.
- View upcoming and previous appointments; requesting and cancel appointments will be available soon.
- Easily update changes to your personal health history and demographic information.
- The ability to receive online statements and pay on your account.
- Grant other adults access to your chart via proxy access.

To sign up for our portal, you will need an activation code that allows you to log on to your chart to create a user ID and password. You can [request access online](#), or by contacting our office during office hours at **585.344.1677**.

Request Access Online

New Payment and Patient Statement Options Now Available

We are excited to offer more convenient options to receive patient statements and make payments on your account. Our new **TEXT TO PAY** feature allows patients to receive their statement via text or email either in addition to or in lieu of a paper statement. Included in the text or email is a link for the patient to pay the amount that is owed.

Custom Orthotics Available

We have the cutting-edge technology for using a 3-D CAD CAM scanner in our office to take 3-D molds of the feet instead of the old-fashioned foam impressions or plaster molds. We are up-to-date with all technology.

We always like to mention that all of our orthotics are different for every patient, and we take every detail into consideration, including height, weight, activity level, shoe gear style, and individual biomechanical disorders to make the perfect orthotic for each and every patient. We make Orthotics that can fit into all types of shoe gear from stilettos to steel toe work boots and everything in between. We have made orthotics to fit into professional ski boots and all styles of cleats for football, soccer, and baseball.

What February's Heart Month Means for Foot Care

February is American Heart Month, a reminder that heart health affects far more than just your cardiovascular system or blood pressure readings. In fact, some of the earliest warning signs of cardiovascular disease can appear in an unexpected place: your feet.

5 Foot Symptoms You Should Never Ignore

Your feet are with you every step of the way, yet they're often the most overlooked part of your body. While a little soreness after a long day may seem normal, certain foot symptoms shouldn't be brushed aside. In some cases, what's happening in your feet can reveal early warning signs of broader health issues that affect your mobility and overall well-being.
